DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1, 2, 8, and 9, drawn to an aluminum chelate complex for an organic EL device and an organic EL device containing the aluminum chelate complex.

Group II, claim(s) 3-7, drawn to a method of making the aluminum chelate complex.

4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:
5. Groups I and II lack unity of invention because even though the inventions of these groups require the technical feature of an aluminum chelate complex according to the general formula (1) is not a special technical feature as it does not make a contribution over the prior art in view of Kita et al. (US 6656608) (hereafter "Kita"). Kita teaches an aluminum chelate complex according to general formula (1), wherein Ar₁ and Ar₂ are bicyclic aryl groups, the total number of aromatic rings in Ar₁ and Ar₂ is 4 and the aromatic rings are condensed; R₁-R₅ are hydrogen and R₆ is a hydrocarbon group containing 1 carbon atom (column 44, compound E-12).

E-12

- 6.
7. A telephone call was made to Gerald M. Murphy, Jr. on July 15, 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.
8. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.
9. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
10. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
